

Summary of Rapid Consultation 2021

The Reference Group met twice and helped to steer the project. Membership of the Reference Group includes (in alphabetical order by first name) Carli Sheers, Kathy Greenwood, Kerry Hawkins, Laura Veleff, Lena Van Hale, Lyn Mahboub, Paul Dessauer, Trish Owen, Vince Alessandro. Their insights are also being used to develop the Draft and Final Reports.

The Front Line Lived Experience (Peer) Workforces Consultation was undertaken through a number of mechanisms; through a information desk at the WA Peer Supporter Network Conference on Thursday 28th July, an online consultation session on Tuesday 2nd August and a survey that was open over July and August that posed the same questions as those discussed in the Peer Worker Consultation. This was a very positive session and was attended by both mental health and AOD, consumer and family/significant other peer workers.

Industry consultation has been in the form of interviews where similar questions from the Survey and Front Line Consultation session were asked.

Webinar about the Peer Workforce Association project

We held an online event to hear an update from Mental Health Commission's Sara Walsh on the Lived Experience (Peer) Workforce Framework and what else is on the horizon in the Lived Experience (Peer) Workforce space. We also shared learnings from the project. The PowerPoint slides from that session are available [here](#),
